

MTG Gap Fader®

Memorandum of Understanding

Objective

The goal for the MTG Gap Fader® Program is to provide the education and software, in as thorough and efficient manner possible, as needed for you to create your own gap research and strategies for your personal use (unless otherwise agreed).

Overview

The Gap Fader Program will commence upon receipt of the initial payment and generally lasts ~ 4 weeks. The program consists of a total of about five (5) hours of training and support allocated per the following (or as mutually agreed):

- Three (3), private, web-based sessions (unless otherwise agreed), lasting approximately 1.5 hours each.
- One half (1/2) to one (1) hour of email and phone support for follow-up as needed and mutually agreed.

Training

At a minimum, the training will cover the following topics:

- 1) MTG Gap Fader installation, configuration and workspace setup
- 2) Entering and optimizing parameter inputs (e.g. gap size, target, stop size, etc.)
- 3) Understanding and interpreting TradeStation strategy reports
- 4) Adding simple (custom) EasyLanguage code for further testing and refinement
- 5) Avoiding over-optimization
- 6) Step-by-step creation of a “gap fade” signal

Please note: the training will not cover:

- Specifics of my proprietary gap trading signals (though I will share concepts),
- How to install and use TradeStation,
- How to write or troubleshoot advanced EasyLanguage code.

It is expected that you will utilize TradeStation’s extensive resources for these last two purposes.

Training is conducted online using GoToMeeting.com. There is no charge to you. All online sessions are recorded and sent to you generally within 48 hours for your review.

Audio is provided through the online meeting via the Internet or land line (phone). A headset is highly recommended so you can follow along with the instruction in real time.

(Signature)

Support

Email and phone support is provided during the term of the program. I generally respond quickly to all emails and phone calls, with a worst case goal of responding within 24 hours on weekdays and 48 hours on weekends. Once the program has concluded, I will be available to answer questions via email and phone.

Advanced Training and/or Support

I ask that you purchase additional time for support if you:

- Use, or plan to use, more than 1 hour total of follow-up time with me after the training is formally concluded.
- Would like 1-1 help in creating your gap trading signals and strategy.

Email me for details. Tim Mock is also available at a lower hourly rate for basic Gap Fader support. See the “Coaching” section of the MasterTheGap.com site for details. Advanced custom coding is available from my personal programmer. Contact me for details.

Communication

Email is my preferred method of communication for simple inquiries. Phone is fine if the matter is urgent or requires a discussion.

- Email: scott@masterthegap.com
- Office: 919-379-3870

To Get Started

Simply purchase MTG Gap Fader and then sign and return via fax, a signed copy of this Memorandum of Understanding (MOU) and the End-User License Agreement (EULA) to **980-225-0391**.

Upon receipt, I will send you the latest version of MTG Gap Fader, workspace, and User Guide. I will also follow up to coordinate the 1st training session, which I normally conduct with 3-14 days of your purchase to give you time to install the application and familiarize yourself with it and the User Guide.

Scheduling

I am available to conduct training Tuesday through Thursday, 11:30 to 4:30 pm ET. On occasion, Mondays, Friday, and weeknights are available too. Sorry, but weekend training is only available for an additional cost.

Once the Gap Fader program commences, the sessions will be scheduled as mutually agreed, and adjusted as needed.

Preparation

Once you have purchased and installed the MTG Gap Fader application, I suggest you do the following to ensure you get the most out of the program and our time together.

1. Read my short book: **Understanding Gaps** (It is available exclusively at TradersPress.com.).
2. Review the Daily Gap Wrap videos posted at MasterTheGap.com (these are also distributed via the Daily Gap Wrap email). This will help you understand how I trade gaps and provide a basis for creating your own methodology.
3. Consider subscribing as a member to MasterTheGap.com if not already (not required, but helpful for most.)
4. Study the MTG Gap Fader User Guide which describes in detail how to set-up and utilize the application.
5. Be competent using TradeStation's basic navigation and charting functionality (e.g. creating a new chart and workspace, etc.).

I look forward to helping you *master the gap* to achieve your personal trading goals.

Carpe Diem!

Scott Andrews
